NOW'S THE TIME Order Christmas Portraits

Too early to start talking about Christmas? Not when you're speaking of portraits as Christmas gifts.

That's advice from Hal Cooner Studio portrait photographer. And he's got pictures to prove it.

Now is the time, Mr. Cooner reports, to have portraits made for Christmas giving. There's nothing more personal than a portrait that can be treasured fo years by family or friends. Individual portraits of adults, babies and children as well as family group photographs are specialties of the Hal Cooner studio.

Before the Christmas rush the studio can take plenty of time to produce the best results possible in color or black-and-white. And you will be assured of prompt delivery, especially if you plan to send portraits as gifts to people far away.

Hal Cooner Studio has several pre-holiday specials on portraits, which include wallet-sized prints as well as large portraits for framing.

"THE BAPTISM OF JESUS"
Matthew 3:13-17; Luke 3:21-22

Which came first, the water or the Holy Spirit?

I have tried for more than two years to find the reason for the fact that there are so few professing Christians in the great mountain area. Among nineteen counties around us in which there are five hundred and fifty thousand people, only one in twelve is a member of any Christian Church, while the average in America is perhaps more than five times this number. Why is this? I believe that we can find the answer in this lesson. Let us read and think together prayerfully.

When Jesus was baptized, did he wait for the feeling? Let us look at the Word of God, both in Matthew and in Luke, in which we find accounts of the Baptism of Jesus. In each instance the Holy Spirit is said to have been given AFTER JESUS HAD BEEN BAPTIZED.

Now, the "Feeling of forgiveness," which has been sought by many thousands BEFORE they take their stand for Christ, confessing Him to be their personal Saviour, in thousands of cases NEVER comes! This is not simply because the person who waits for this feeling has not taken God at His Word, accepting the forgiveness that is freely offered in the Gospel!

We are not told that Jesus waited for "a feeling" to be baptized. He went to John to be baptized because it became him to "fulfill all righteousness." This means that he took the LAW upon his shoulders, that he was the Son of God, and "being found fashioned as a man, became obedient unto Death, even the death of the Cross." If Jesus had waited for the Holy Spirit to have come into his heart, to give him the "feeling," he would probably never have received the Holy Spirit. Who came in the bodily form of a dove and rested upon him, AFTER the acceptance of water baptism at the hands of John.

Which is the more important, the Baptism by water or the Baptism by the Spirit? John

gives us the answer: "I indeed baptize you with water unto repentance, but he that cometh after me is mightier than I, whose shoes I am not worthy to bear, he shall baptise you with the Holy Ghost and with fire." (Matt. 3:11).

We are to seek baptism of the Holy Spirit, BUT THE BAPTISM BY WATER IN NEARLY EVERY INCIDENT IN THE NEW TESTAMENT COMES BEFORE AND NOT AFTER THE BAPTISM BY THE HOLY SPIRIT. This is true because it is the natural order. It is the way it should be. The need must die before it can come up. When we act in faith on the Promise of God, then God is faithful to honor his Covenant of forgiveness by giving to us His Holy Spirit. This was true in the case of Jesus' Baptism. Should we seek another way? It was true in the case of Pentecost. The people heard Peter's sermon; were convicted of their sins, then asked, "What must we do?" The answer came: "Repent and be baptised every one of you in the name of Jesus Christ, for the remission of sins, and YE SHALL RECEIVE THE GIFT OF THE HOLY SPIRIT." (Acts 2:38). It was true in the case of the Philippian Jailor who asked: "What must I do to be saved?" Paul answered: "Believe on the Lord Jesus Christ and thou shalt be saved and thy house." He accepted this word because he BELIEVED it. Then, after washing Paul and Silas' stripes, straightway he and all his house were baptised. It was true of the Ethiopian Eunuch. When Philip explained the Gospel to him in the chariot, teaching him the meaning of the 53rd chapter of Isaiah, the Eunuch accepted the word and asked: "What doth hinder me from being baptised?" "If thou believest with all thy heart, thou mayest," Philip replied. The Eunuch was then baptised "and went ON HIS WAY REJOICING." THE FEELING of job came to him AFTER he had believed the word and had been baptised.

So the FEELING comes AFTER faith and obedience to receiving the sign of water, which confirms to the world the fact that you have accepted the gift of God's Love at Calvary. In only one instance in all of scripture do I recall the Spirit having been given first, that was no doubt a sign to doubting Peter who was preaching to the Gentiles for the first time in home of Cornelius, a Roman Soldier. Do you believe? then confess your faith, being baptised and seek the gift of the Holy Spirit.

Jackson Minister To Preach At Bowman Memorial Sunday

The Rev. Mr. Bruce Whitney, of Jackson, will be the guest minister at the Bowman Memorial Methodist Church on Sunday, Oct. 19, in both worship services of that day.

Mr. Whitney is a native of the state of Pennsylvania. From the Fall of 1954 through the Spring of 1958 he was a student in Union College at Barbourville. During his junior and senior years he also served as the pastor of four rural churches in Tennessee.

At present Mr. Whitney is teaching English in the Jackson High School. After a few years of teaching he plans to complete his preparation for the Methodist Ministry by attending one of the ten Methodist Theological Seminaries.

After the completion of his seminary studies he expects to become a full-time Methodist minister. At present he is a duly licensed local preacher in the Methodist Church.

Mr. George Luke, superintendent of the Bowman Memorial Methodist Sunday School, will preside at the worship service on October 19.

Under Federal Law Outlined Rules For Hiring Children

Employers who hire teenagers this fall for full or part-time work were reminded today about the child-labor provisions of the Fair Labor Standards Act.

Regional Director Pat Melan of the U. S. Labor Department's Wage and Hour Division pointed out that youngsters may be lawfully hired for a variety of jobs.

"Boys and girls 16 years of age and over can work under the Fair Labor Standards Act in any job — factories, wholesale houses, communications or other industries — except those which have been declared hazardous by the Secretary of Labor," Melan said.

Thirteen hazardous occupations orders have been issued which prohibit the employment of minors under 18 years of age. The prohibited jobs include work as a driver or a driver's helper, elevator operator, operator of certain power-driven machinery, and most jobs in logging and sawmilling.

"Although the law prohibits the employment of children under 14, the 14- or 15-year-old may be lawfully employed in office and sales work, fruit and vegetable packing sheds, and in a few other jobs — including work in manufacturing, mining, processing or similar jobs," Melan added.

"It must be remembered, however, that certain restrictions apply during school hours for this age group. Youngsters of 14 and 15 may work only outside of school hours and a maximum of three hours on any school day. All work must also be performed between the hours of 7 a. m. and 7 p. m."

"An employer can protect himself from unintentional violations of the Act if he obtains and keeps on file an age certificate showing the minor to be old enough for the job in which he is employed. Such certificates can usually be obtained from local school officials."

The child-labor provisions of the Fair Labor Standards Act apply to employment in interstate or foreign commerce or in the production of goods for such commerce. There are a few exemptions from these provisions, however.

Melan points out that the child-labor provisions of the Act do not apply to actors or television performers or to child-labor provisions of the Act do not apply to actors or television

performers or to children engaged as newspaper carriers. Nor does the Federal law cover such work as baby sitting, caddying, and working at the fountain of the local drug store. The law also exempts children working for their parents in their parents' own business as long as the work is not mining or manufacturing, or has not been declared hazardous.

Trapisin Troublesome

Corinne Clarke

It being U.K.R.E.A. last week there was a heap of trapisin among the folk as they felt foot loose and fancy free. The young ones hepped it up by partying and dancing and the men took off on fishing trips or to a ball game. Most of the gals took Hazard in; just to shop around for odds and ends or a brand new outfit.

These hills are getting so beautiful in their dresses of red and gold; it's a pity for anyone to stay inside the house and not get out to look them over.

New Babies

Mr. and Mrs. William T. Bailey, of Hindman, announce the birth of a baby girl born at the Homeplace Hospital, Oct. 2. They have chosen the name Brenda Jill, and weighed 7 lb.

Mr. and Mrs. Daniel Patrick, of Bearville, announce the birth of a 7 lb. baby boy, born Oct. 5, at the Homeplace Hospital.

Mr. and Mrs. Marcus Ritchie, Hindman, announce the arrival of a baby girl born Oct. 8 at the Homeplace Hospital. She weighed 7 lb., 3 oz.

A baby boy was born to Mr. and Mrs. Ray Calhoun of Hindman and she weighed 8 lb., 5 oz.

TRUTH-AD FOR THE UNCHURCHED

BY WINN T. BARR
The Bible says that our righteousness is as filthy rags (Isaiah 64:6). If our righteousness is bad, what about our wickedness? It is difficult for us to understand why the Bible says we are no good without Christ. But the answer is that what God wants is love; and if you don't love God, all your morality means nothing to Him. The fact that one thief is honest with his fellow-thief, doesn't make him honest in the sight of the person who was robbed! Until you give yourself to Jesus, you are stolen property; and you just can't do good with stolen property! Look for a TRUTH-AD every Thursday.

The good NEWS belongs in the NEWSpaper, but LOOK in the BOOK it comes from, and SEARCH for the CHURCH that obeys that book most fully.

CHAPPELL'S DAIRY

THE WORLD'S MOST BEAUTIFULLY PROPORTIONED CARS

Styled, powered and priced for today's driving! There never was a Ford like this before! Its classic new design was awarded the Gold Medal of the Comité Français de l'Elegance at the Brussels World's Fair! With new Thunderbird flavor in each lively line and tastefully new interiors, these 59 Fords are beautifully proportioned for elegant driving.

Power, performance and economy are served up in new proportions, too. All standard Ford engines—Six or Thunderbird V-8—thrive on regular gasoline at regular prices. You save up to 5 cents on each gallon! There's a new aluminum muffler that normally will last twice as long as conventional mufflers used on other cars... full-flow oil filtration that lets you

change oil at 4000 miles instead of the 1000 often recommended... new Tyrex cord tires for greater economy and safety... a brilliant new Diamond Lustre Baked Enamel Finish that's so durable you won't have to wax it ever... and two new economy power-transmission teams that will bring you savings automatically. That's why we say, for '59, Ford is truly a masterpiece of underpricing!

NEW economy team Number One! Get all the high performance of a completely new Fordomatic Drive teamed with a Six or Thunderbird V-8—at a price that puts automatic

driving within everyone's car budget. It's a simplified Fordomatic with nearly 1/3 fewer parts. **NEW economy team Number Two!** Take Ford's versatile new Cruise-O-Matic Drive, add the responsiveness of Thunderbird Special V-8 power and you have the last word in automatic driving plus the "built-in" overdrive savings of an economy-gear axle.

Altogether NEW in everything you can see, feel or touch!

Belfry Blasts M.C. Napier 44-0

Undefeated Belfry kept its goal-line clean here, Friday night, while registered a 44-0 victory over the M. C. Napier Navajos of Coach Ed Orick.

Capitalizing on Napier miscues, Belfry struck for three touchdowns in the first six minutes of play and then coasted the remaining distance with only the problems of preventing Napier from scoring.

Pacing Belfry's attack was Quarterback Guy Scott, who scored two touchdowns and passed 15 awards to End Don Elkins for a third.

Scott ran for one touchdown on a 70 yard punt return, and also scored plunging from six yards out.

Halfback Harold Sullivan tallied two Belfry touchdowns, getting the first in the opening minutes of the second quarter on a 55 yard punt return, and his second late in the third quarter on a three yard excursion.

Halfback George May scored a touchdown on a one-yard plunge in the third quarter, and end, unidentified, plucked a

Broadway Ties Walkertown; Lothair Defeats Liberty

Hank Baldrige second half featured five defensive play by Yancey and frequent passes by Broadway back, Johnny Stone, who was able only to connect twice with back, Phil Copeland.

In the night cap the Liberty Dragons, under quarterback, Nat Hopkins, were unable to contain Lothair's massive backfield. Quarterback, Walter Chesting, scored on runs of 8 and 2 yards, with Joe Davis going 1 yard for the other tally.

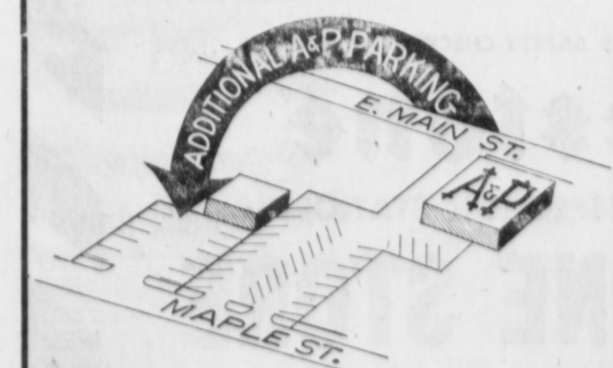

Freddie Thomas plowed through the Liberty line for 2 extra points in 3 attempts. The officials for both games were Dewey Sizemore, Arnett Strong and Bobby Cisco.

Play resumes next Monday evening at 5:30 as Broadway meets Lothair and Liberty takes on Walkertown.

Returns Home After Visit

G. S. Richie

Mr. and Mrs. Kash Begley, of Enon, Ohio, have returned home after visiting her parents, Mr. and Mrs. Curt Richie.

Mrs. Fred Richie and Mrs. Edna Richie, were co-hostess to a bridal shower honoring Miss Louise Richie who became the bride of Mr. Larry Smith, Saturday, Oct. 11. Mrs. Smith was the recipient of many lovely and useful gifts.

Word has just been received here that Mr. Oakley Morgan, a former resident of Hardburly, was injured in a mine accident in Clay County and is in a very serious condition at the Mt. Mary Hospital at London.

I would like to take this opportunity, in behalf of all the people of Hardburly and all the friends of the late Sylvia Brooks and Harold and Donald Brooks in the loss of their husband and father.

Mae Byrd Rebecca Lodge No. 43, held its regular meeting Monday night with Glenna Sue Richie, Noble grand presiding. Members attending were, Billie Lee Begley, Maude McQuery.

Bangs Testing In Knott County

Knott County farmers will soon be given the opportunity to have cattle tested for Brucellosis (Bangs Disease) according to the county agent, Albert F. Stamper.

Arrangements are being made for a representative of the Kentucky Department of Agriculture to visit Knott County to explain the program to the farmers.

Bangs disease is a disease of livestock which not only causes loss of cattle but it causes undulant fever in human when drinking raw milk from an infected cow.

To have a free test in a county it will be necessary for the farmers in the county to petition the state for an area test. This is accomplished by 80% of the farmers, who won 75% of the cattle, signing up for the test.

Your county agent will be unable to sign up the cattle but will give help in organization and planning if there is enough interested in the program.

Farmers will be invited in to find out if the test is wanted for Knott County.

Prayer For The Week

Mima Nickles

O God we do not know what we should ask of thee, for our failures are many. Fill our hearts with thy goodness and give us strength to overcome the temptations of life. Endow us with thy spirit, so that we will live better lives. May the community in which we live, be enriched because we walk close to thee. Amen.

"TIRE SAFETY-CHECK"

DAYS IN HAZARD

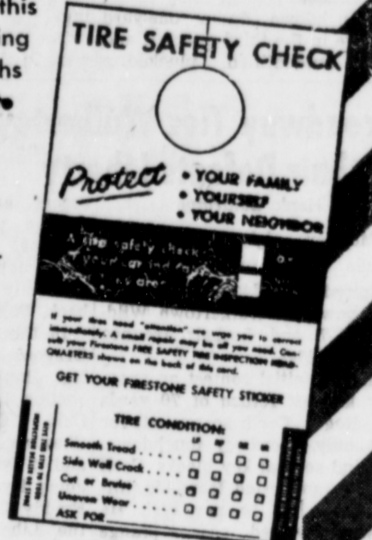

In the interest of advancing motoring safety in this area, we are conducting a concentrated tire-checking campaign...to help reduce accidents and deaths resulting from worn-out or damaged tires. We invite your cooperation in this great safety campaign.

WATCH FOR THIS CARD

It means that one of our tire inspectors has safety-checked the tires on YOUR car...when you find it on your car, read it carefully. It could save your life!

TEAR OFF THE STUB

Tear off the stub of your safety check card...bring it to one of the safety stations listed below and you'll receive your Safety Check Sticker.

IF WE SHOULD MISS YOUR CAR...

drive in to any of the safety stations...have your tires safety checked

...and they will put your Safety Check Sticker on your car.

LOOK WHAT HAPPENED IN WICHITA

The story of what happened in Wichita is of vital interest to every motorist. Chances are that you will be as shocked at the results as were the people who conducted the test.

Wichita's motorists are typical drivers...not unlike the drivers right here. They had become so used to superior tire performance that they were lulled into a false sense of security...or in an attempt to squeeze the last mile of life from their tires, many drivers were subjecting themselves and all other motorists to extreme danger.

WICHITA, KANSAS. During September a tire-safety check was conducted. It was the most exhaustive check of this nature ever made. Wichita was chosen for the test because it offered a traffic-saturated metropolitan area combined with high-speed turnpike traffic.

The results of the check astounded the safety experts. It showed that four out of ten autos have bad tires! For the first time in the history of highway safety research, they were able to positively document the fact that unsafe tires are a critical factor in highway safety.

The safety check also produced evidence that failure to keep car wheels aligned is a contributing factor to unsafe tire wear.

The Wichita tire-safety check was hailed as the "most worthwhile study of its kind" ever conducted.

Modern Family + All-Electric Home = BETTER LIVING

Here is what the Arnold J. Kiessling family has to say about modern all-electric living:

Mr. Kiessling—"Electric heat has spoiled me. It's worry-free, there's no work connected with it and it's no more expensive than other kinds of heating."

Mrs. Kiessling—"You will look a long time before finding anyone who appreciates electrical appliances more than I do. They are important to the welfare of our large family."

Nancy—"My pride and joy is the dishwasher. It gets everything clean and shiny easier and faster."

Reita—"We think all of our appliances have a hand in making things a great deal easier on all of us."

Judy—"Our electric washer and dryer makes doing our large washes so simple that any of us can do one in no time at all."

David—"Big thing I notice is that there's not too much work for me to do around this house."

There certainly doesn't seem to be any doubt about how the Kiessling family feels living the all-electric way. You can enjoy the same comforts and conveniences. Your electric appliance dealer is ready to offer helpful suggestions. Why not see him soon?

Bible Verses For The Sick

Bernice Wright

I would like to pass these Bible verses on to Rev. Harold Carlson who isn't so well. Rev. Carlson is the pastor of the Fourseam Gospel Church.

"He that dwelleth in the secret place of the most high shall abide under the shadow of the almighty. I will say of the Lord, He is my refuge and my fortress: My God; in him will I trust. Surely he shall deliver thee from the snare of the fowler, and from the noisome pestilence. He shall cover thee with his feathers, and under his wings shalt thou trust: His truth shall be thy shield and buckler. Thou shalt not be afraid for the arrow that flieth by day: Nor for the pestilence that walketh in darkness; nor for the destruction that wasteth at noonday. There shall no evil befall thee, neither shall any plague come nigh thee, because thou shalt be under the shadow of the almighty, and shalt be under the shadow of the wings of the Lord."

Mrs. Cornett, 75, Dies At Hospital

Mrs. Marion Cornett, 75, of Viper, died Oct. 14 at the Mt. Mary Hospital.

She was a member of the Missionary Baptist Church.

She is survived by three sons; Arthur Cornett and Asbel of Daisy; Bruce Cornett of North Vernon, Ind.; two daughters, Mrs. Flora Ratcliff, Daisy; and Vivian Browning of Viper. Also surviving are four sisters and three brothers, 21 grandchildren and 3 great great grandchildren.

Funeral services will be tomorrow, at the Riverside Missionary Baptist Church at Jeff with the Rev. Winn T. Barr, Rev. Adkins and Rev. Carl Trent Jr. Burial will be in the Cornett (Arch) Cemetery.

The Brashear Funeral Home will be in charge of arrangements.

Sunday School Enters Contest

Once again one of our local Sunday Schools has entered the big, world-wide contest sponsored by the CHRISTIAN LIFE Magazine. The Sunday School of the Heiner Community Church hopes to win one of the valuable prizes.

The contest is already one week old with five more to go. Keen interest is being shown between the two teams in the Sunday School, captained by Miss Mary Ellen Deaton and Mr. George White.

This Sunday morning at 10 at the Heiner Grade School house, a crowd is expected, reports Mr. David Newell, contest secretary. Plans are in the making to handle an overflow meeting.

Police Officers May Deduct Expenses on Tax

Police officers still are entitled to deduct ordinary and necessary business expenses on their Federal income tax returns, Wm. M. Gray, District Director of Internal Revenue emphasized today.

This is true, he said, even though a recent law repealed the \$5 a day tax exemption on statutory subsistence allowances received by some police officers.

Mr. Gray said police officers may deduct, directly from gross income on page 1 of Form 1040 expenses for travel, meals, and lodging while away from home overnight and local transportation expenses incurred on the job. He said they also may deduct other necessary job-connected expenses on page 2 of Form 1040, if the standard 10 percent deduction is not claimed.

Public Statement

Most of the people of Hazard know me. I have lived here twenty-five years, nineteen of those years I have been employed with the City Sewer Department. I have raised four children and being a man of very little education, I have always made it a practice to do my job to the best of my ability and leave politics to the politicians.

About three months ago my salary was cut \$30.00 per month. Approximately two months ago I was instructed to go to the Mountain Wholesale in Lohair and do some work for R. W. Gibson. As you know, Lohair is out of the city limits of Hazard. I was instructed to do this work during my regular working hours as a city employee. After my \$30.00 cut in salary, it became necessary for me to continue doing my extra work after working hours in order to maintain my standard of living. Last week I was working on an extra job on my own time and City Manager Hobert Wootton found out about it by some means, and fired me from my job of nineteen years. With the exception of Hobert Wootton, I have had no trouble with the city officials, at any time.

Commissioner Feltner has tried to help me and to prevent my salary being out, but as per usual he was outvoted by the other Councilmen.

My phone number is North 310 and I am now available for those sewer jobs twenty-four hours per day now.

Sincerely,

AMERIDA BOWLING

Slum Clearance and City Planning

The progress which has come to this community since the flood, as we have stated time and time before, has been little short of phenomenal. Urban renewal... slum clearance... another city parking lot in prospect... repair of the Walkertown and High Street bridges. We could list others.

Now, another step forward is in prospect for the community if the voters of Hazard so desire it. We refer to the sewage treatment plant, which can become a reality provided a revenue bond issue is approved by voters in November.

One objection to the bond issue which has already been raised involves the clause "unlimited taxation," which will appear on the ballot. In brief, the two words pledge the financial integrity of the people of Hazard to pay off the bonds in the event revenue from the sewage plant will not retire the debt. Present thinking at city hall is that the revenues will suffice debt and no further taxes will be needed. Why revenue bonds? The interest rate is lower.

Taxes, however, are rather irrelevant to what is involved here. If you buy a new car, you're expected to pay for it. The same goes for a new coat—a hat—a home, a toy. Nothing comes free these days, except in cereal packages.

The same is true of a sewage plant. It must be paid for.

But even this is not the crux of the issue. Simply stated, Hazard voters will be asked this November whether they want the conveniences of the 20th Century for their city.

Our Readers Write

Filthy Town?

What is the matter with the people in Hazard? All you can read in the state newspapers is about the progressiveness of the city, the new motel and the football team. But obviously, your people are ignoring a very obvious and repulsive feature that stands out like a beacon. Hazard is a dirty town.

Now I understand the city has purchased a street cleaner. Good. This indicates the city government is aware of the value of an attractive town. But what about private businesses or individuals? They seem only aware of how many people walk through their doors to buy, not knowing that many are turned away by the mess in front of their door.

This isn't the only case by far. Right on down the street stands a gray, leaning remnant of a shack unfit for rodent habitation. And at the end of Main Street, stands the ugliest city block on the continent, though I understand it has been condemned.

People responsible for these eye-sores owe it to the city that supports them to CLEAN UP.

Sincerely,
A Tourist

Clarifies Award

Letter To Editor:

Charles W. Metcalf, Chairman of the Perry County Draft Board has asked that a clarification be made about a story that recently appeared in the Hazard Herald, in connection with a Certificate of Merit received by Mrs. Janet Moore, Assistant Clerk of Local Board 81, for excellent management. Mr. Metcalf pointed out that the certificate was given Mrs. Moore for work done at the Hyden Draft Board, where Mrs. Moore was sent for two days a week for nine weeks. The Hyden Board was without a clerk for several months and Mrs. Moore worked at that office until a clerk was appointed.

Double Page Ad Commended

We hope that everyone read the two-page ad in last week's Hazard Herald commemorating Business Women's week, and sponsored by the local Business and Professional Women's Club. It was an attractive ad and the Publishers of The Herald are to be commended for its good appearance.

We want to thank everyone who inserted an ad on these pages and ask the public to patronize these firms. They are our local business people and they support all worthwhile causes in our community. They deserve our patronage, because they support our community. The money you spend with them stays in your own community. This is not true of the money you spend in Lexington, Louisville or other towns. When there is a drive on, you look to your local merchants. You do not ask the merchants in Lexington or other towns to contribute.

The money raised for this ad will be spent on underprivileged children in Perry County. It will go into our Shoe Fund and we will purchase shoes for school children that need them but can't afford to buy them. Our club also helps deserving girls in Perry county go to college by providing scholarships.

We urge our people to cooperate with us by trading at home wherever possible and to support all our local civic organizations. Let's work together to make Perry County a better place in which to live.

We thank everyone that helped make our week a success.

Mrs. Nello T. Harper,
Chairman, Business Week Committee,
Business & Professional Women's Club.

You will decide if you want outhouse facilities for the town, while you enjoy indoor toilets in your homes.

You will be asked if you want tourists and visitors to our community greeted by an obnoxious odor every summer as they drive along Kentucky 15. (It is a tragedy the vote is not being taken in mid-summer when the stench between Hazard and Walkertown is poignant enough to insure unanimous approval of the bond issue).

You will be deciding whether you want some of the filth which poisons the North Fork abolished, and if you desire the community rid itself of health menaces which are created by uncontrolled disposal of sewage, as is now the situation here.

At stake is this community's entire attitude towards water pollution, a sore subject along the North Fork and its tributaries for the past 20 years. How are we to ask other communities and businesses along the North Fork to cooperate with us in preventing water pollution if we do not approve the bond issue. And how are we to restore the North Fork to its past days of glory as a great, fishing grounds, if we do not control water pollution. We can't.

Much is at stake in the bond issue. This paper can only plead for its passage. Hazard's future depends on whether we have the foresight to recognize now the desperate need for the plant.

Every Man In Alcatraz Was Once A Boy...

No man who ever lived was born to be bad—not Cain or Capone, not Herod Hitler, not vagrant, liar, or thief, not addict or morals offender, not gambler, forger or killer. Physical weaknesses can be inherited, but not moral ones; to suggest otherwise is to absolve from blame any man who ever violated the laws of his land or his Creator.

It's been said with great truth that there's no such thing as a bad boy—and yet every man in Alcatraz was once a boy.

What is it, then, that turns a good boy into a bad man?

In a sense it's his legs. As they lengthen, they begin to take him farther and farther from home. They separate him from whatever degree of discipline and guidance he's known, and put him increasingly "on his own." For the first time since his first breath of life, they begin to expose him to the temptations, fears and frustrations he'll encounter until his last one.

A boy's body grows faster than his mind. If he can find a decent environment from home, if he can be given something worthwhile to occupy his time until his brain catches up with his body, there's a far greater chance that a good boy will become a good man.

That's the philosophy of scouting. During the past 47 years, the Boy Scouts of America have laid hold of millions of our boys at this crucial crossroads stage of their lives, and by developing courage and moral stamina have made it easier, for the rest of their lives, for them to resist the things they know are wrong. Scouting gives a boy an honorable and worthwhile objective, and teaches him how to cooperate as well as how to compete in achieving it. It makes him realize that within himself he has the power of accomplishment, and builds his self-respect. It gives him a chance to be recognized by others for the time and effort he puts into achievement. It starts him off with a pledge which no other ambition can surpass—"ON my honor, I will do my best to do my duty to God and my Country..."

No parent, no minister, no teacher, can ever be sure that their influence on a boy unfailingly will make him a good man. In walking to manhood with a boy, all any adult can do is the same thing that the Boy Scout pledges—his best. But millions of parents rest easier, day and night, because they know that in the Boy Scouts of America they have a strong ally also doing its skillful best to help their boys become good men.

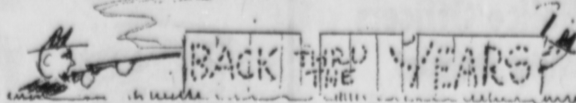

Grassroots Opinion

BRIGHTON, COLORADO, BLADE: "The most of us do not concentrate well when we read. Thus, we often miss many vital points we should have remembered..."

"Reading has ceased to become a habit with many children. Many don't read papers, books, or magazines. Instead they read comics and look at the TV murder plays."

"If everyone read better they would benefit themselves in many ways. They would be better students, better learners of what is going on about them. Everyone of us could learn something every day of our lives..."

STARKE, FLA., TELEGRAPH: "Advertising—Anyone who ever doubted the effectiveness of advertising and promotion should have been on Call Street last Friday night to witness the crowd at 'Shoppportunity Showcase.' Never underestimate the drawing power of well-planned advertising and promotion."

Mountains Still Echo the Legends of "Bad John" Wright, Who Some Say, Killed 30

Gurney Norman

The pages of Kentucky histories are filled with description of famous and infamous characters whose exploits have provided exciting conversation and reading for generations since the last physical frontiers of Kentucky were removed and the populace settled down to a fairly quiet existence.

One of those infamous characters was Letcher County's "Bad John" Wright, who, according to legend, killed 30 men, threatened an author's life for putting him in one of his books, hunted cattle rustlers, traveled with a circus and on one occasion, in his "line of duty" as a law officer, lined up several prisoners and shot them into a pit that served as their grave.

Eastern Kentuckians have often wondered just how true these tales were, and even today as old timers sit about the stove in little rural stores, "Bad John's" name occasionally enters the conversation.

In an effort to at least partially shed some light on the man's dubious but colorful career, we now turn to a ragged copy of a 12-page magazine, "The Vagabond Gazette," published in 1930 at Big Laurel, Virginia. That issue of the Gazette carried a feature story by Helena Scott of Wise, Virginia entitled "The Real John Wright." Miss Scott visited the fabled feudist at his home to get her story.

Lived At Pound

Born near Neon, "Bad John" was 89 at the time Miss Scott went to see him. He lived on Pound Mountain in Virginia in a modest log house with a new porch. She mentions feeling somewhat "awe-stricken" as she walked down the path to the man's rustic home on the Pound. She intended to affirm or refute some of the tales told about Wright.

According to her article, the author that legend says Wright threatened was John Fox, Jr., who wrote "The Little Shepherd of Kingdom Come," and "The Trail of the Lonesome Pine." Fox reportedly promised Wright he would not include a character similar to Wright in his book, but exploits of a man called "The Red Fox" in the letter book are strikingly similar to some attributed to "Bad John."

And then there was supposedly the occasion when a mob in Letcher County was about to scare the Letcher county judge

HARK THE HERALD

Arise! Dunkers Of The Donut! Our Sacred Trust Is Threatened

Fred W. Juigart, Jr.

Arise, ye dunkers of the donut—your sacred trust—the time-honored institution of the hole in the donut—is being challenged.

This scribe has no less enrolled his physical being in support of a new cause being sponsored by the N. D. A., the National Dunking Association. Won't you join me—I pray—in preserving the hole in the donut and mankind's most sacred breakfast trust—dunking.

Seems we dunkers and donut-hole lovers are being threatened by a malicious, hole-less donuts, which would strike a death blow to the hole and the dunk.

Donuts Threaten Donuts

Read what our president, Bert Nevins, has to say on the subject.

"We thought you'd be interested to learn about a new committee just formed within the National Dunking Association, called 'The Committee for the Preservation of the Donut Hole.'"

"It's only natural that such a group be organized on the eve of National Donut Week, Oct. 18-Oct. 25 and if you feel the same way we do about the Donut Hole, we cordially in-

vite you to join the campaign. There are no initiation or membership fees.

"We don't know whether you've seen the handwriting on the wall as we have...but surely you've read about the round donut balls, without the hole—and more recently about the square donuts and now comes the new packaged yeast raised donuts, which to be sure, have nice round holes and are delicious, but which dunkers have to break in half in order to dunk in their favorite beverage.

Hole Goes Into Thin Air

"What do you suppose happens when you break a raised donut or even a cake donut in half—the hole evaporates in thin air. That certainly is no way to treat the donut hole."

Nevins continues:

"We, who have been dunking for years, claim there is no fun in dunking if you do so without the hole. Without the hole, you're actually not dunking—you're sopping—and no true dunker would want to be accused of that."

Splitting The Donut

"The new proper way to dunk is to split the donut, rather than breaking it, so that the hole still remains. Yes, splitting the donut is just what the doctor ordered for those who like to dunk the new yeast raised donuts. Come to think of it, in an age when they split atoms, what's wrong with splitting the donut?"

Won't you please help us preserve the hole in the donut by discouraging those who would destroy it."

Unquote, Mr. Nevins.

"Dunk and Sunk"

Thank you Mr. Nevins. As an avid donut-dunker who cherishes the evasive donut hole and must rebuke the scorn of a dunk-hating wife, I shall appeal wholeheartedly to the people of Perry and adjoining counties for support for their support in protecting the hole and the dunk.

Do not lose faith, ye brethren in the donut. And remember our motto:

"United We Stand, Divided we're Dunk and Sunk."

Worse Rumors Unconfirmed

The other, more lurid stories about the mountaineer go unconfirmed, and from reading Miss Scott's article, "Bad John" did not impress her as bad at all. She thought that such a kind-natured and soft-spoken man as she found on Pound Mountain that day was incapable of the brutality the man allegedly was guilty of.

Writer Scott said she "wished to write with fairness, unswayed by the glamour that has surrounded John Wright... Conditions after the Civil War were such that it was necessary for men to protect their lives and property. If John Wright killed any men (and he certainly did not kill thirty) you may be sure that he thought he had to."

So the observation and opinion of a lady writer who had the rare experience of meeting the fabled man face-to-face would contradict many of the stories told of "Bad John" Wright, stories that no doubt many even want to believe yet because of the historic romance they hold, but stories that, for honesty's sake, must be considered only for what they are worth.

Gentleman or Killer?

"Bad John" Wright of Letcher County sits astride his horse on one of the mountainsides that still echo the legends of the feudists' exploits. Some say he killed 30 men in his life-time.

Health Nurse Visits Community

Our news is being entered late, due to the shift in grades. The previous year four was our highest grade taught. So after the 5th had started to Chavies, the parents wanted them transferred back to us. This was done.

We are getting off to a good start without too many A's being made. Most children are graded too high. Many times both parents and pupils feel insulted at a C. That C is supposed to be average and most of us are just that. The grades from 81-87, which it represents, should catch the majority of people.

The Parker children moved to Heiner; but we gained Beulah and Cassie Colwell from Campbell's Creek.

Mrs. Pendergrass, our county Health Nurse, visited us on the 25th of September and again on Oct. 13.

Miss M. E. Lowery has returned from Hagerstown, Md., after being called there due

SERVICE NOTES

Adam Fugate, Avawam, Has Role In Naval Operation

Adam W. Fugate, seaman, USN, son of Mrs. Corsie Fugate of Avawam, aboard the oiler USS Platte, is taking part in a First Fleet Striking Force Exercise, nicknamed "Barnstorm," during Oct. 13-17, off the coast of Southern California.

"Blue" offensive forces will train in launching carrier air attacks against a large land mass, Opposing "Orange" defenders will counter the attacks using submarines, aircraft and other modern weapons.

The exercise will include training in the use of guided missiles—the surface to surface "Regulus I," surface to air "Terriers" and air to air "Sidewinders" and "Sparrows"—representing the operational missiles in the Navy today.

Operations such as "Barnstorm" serve to keep ships of the First Fleet in a high state of combat readiness preparatory to deployment to the Seventh Fleet in the Western Pacific.

Legal Notice

NOTICE OF ELECTION

"Public notice is hereby given that an election has been called and will be held in the City of Hazard, Kentucky, on Nov. 4, 1958, in conjunction with the regular elections scheduled by law to be held on said date, for the purpose of ascertaining whether the qualified voters of said City will approve and authorize the incurring of an indebtedness by said City in the principal sum of \$525,000.00, to be evidenced by the issuance of said City's General Obligation Bonds, payable from unlimited taxation, for the purpose of paying all or part of the costs of sewer improvements, including a sewage treatment plant, and expenses incident thereto.

If the incurring of said indebtedness is approved by the requisite two-thirds majority as required by Section 157 of the Constitution of Kentucky, provision will be made by the Board of Commissioners for the issuance of such bonds and sale thereof at one or more advertised, public, competitive sales. If said bonds are approved and issued, the City will be mandatorily required by Section 159 of the Constitution of Kentucky to provide for the levying of a special and separate annual tax upon all property subject to taxation for city purposes sufficient to provide for the payment of the principal of and interest on said bonds as they become due.

The question which will be submitted on the ballots at said election will be, as follows:

"Shall the City of Hazard incur an indebtedness in the sum of Five Hundred Twenty-five Thousand Dollars (\$525,000.00) and issue and sell therefore its General Obligation Bonds, payable as to both principal and interest from unlimited taxation, for the purpose of paying all or part of the costs of providing sewer improvements, including a sewage treatment plant, and all expenses incident thereto?"

Said election has been called by action of the Board of Commissioners of said City at a meeting held on September 29, 1958, as shown by the minutes of said meeting which are spread at large upon the official records of the Board of Commissioners where they are subject to public inspection.

BY ORDER OF THE BOARD OF COMMISSIONERS,

NAOMI B. WEST

Somerset Is Under-rated Eleven

Ask a Hazard fan if the Bulldogs can beat Corbin, and you'll find the answers evenly divided or loaded with "ifs."

Ask the same fan if Somerset can beat Corbin and you get a positive "No."

All of which goes to prove that memories are short and Hazard is in for it's toughest game of the season tomorrow night when the Bulldogs engage the Briar Jumpers at Somerset.

Take note, Mr. Fan: Somerset dumped the fearful Corbin eleven in the opener for both teams this fall, 7-6.

With tremendous weight in the line and a highly regarded fullback, Somerset is not in the pushover category. Despite a deceiving 4-2 record for the season, the Briar Jumpers have all the experience, talent and weight to leave Hazard fans gloomy when this year's contest is written into the record book.

Then there's also the matter of revenge which will enter into Friday's engagement. The Briar Jumpers took it on the chin last year from Hazard. Even their coach, Jim Wilson, admits his boys haven't forgotten that experience.

Pointing To Hazard

While the Briar Jumpers won't confess to be pointing for Hazard, there's no question but that they are. Wilson frank-

ly admits he's calling this the Briar Jumpers' 'toughest game of the year.' And with Hazard one of only two teams in the State on the undefeated list, it would be a feather in the cap of any coach to knock them over.

A run-down of Somerset's schedule would indicate that of the three teams remaining on the Bulldog schedule, the Briar Jumpers are the squad with the power to do the trick.

Wilson's squad has posted wins over Black Star, 19-6; Tompkinsville, 19-0 and Lafayette, 13-6, in addition to the triumph over Corbin. The losses have come at the hands of two of the State's better elevens, Newport Public, 7-0, and Dixie Heights, 27-6.

Top Fullback

Somerset's attack is built around Tommy Criswell, a highly-regarded 170 pound fullback who lettered last year as a junior. Criswell, the team's top scorer with three touchdowns, is recognized as one of the best runners in the State, and a boy whose senior year should see him focused on by the college scouts.

With him in the backfield are Wilson Sears, 140 pound quarterback, a senior with one letter; James Fred Hines, 150 pounds, and David Isbell, 180 pounds, both halfbacks and seniors who lettered last year.

Guards Pace Line

Somerset's line is headed by the two guards, 180 pound Bob Waddle, a junior who first lettered as a freshman, and Ronald Baker, 195 pound junior who lettered last season. Wilson classifies the two as his "better linemen."

At center will be Gary Mitchell, 170 pounds, a senior with one letter; tackles will be 240 pound Jack Girdler, a junior who lettered in his sophomore season, and 205 pound Ronnie Brank, a senior with one letter. Ends will be Elroy Edwards, 170 pound junior, and Joe Brown, 175 pound senior, who has lettered once.

As was the case against Jenkins, the Bulldogs will be greatly outweighed in the line. Somerset's 191-plus average in the line gives the Briar Jumpers an advantage of almost 25 pounds to the man.

Mystery Creek

Six miles east of Somerset, off Ky. 90, is Short Creek, a mountain stream that flows from under one hill and disappears under another one, 200 feet away.

Napier To Test 7-1 Cumberland Tonight

M. C. Napier, still smarting from it's own mistakes last week against undefeated Belfry, tries to get back into winning fashion tonight when the Navajos engage Cumberland there at 7:00 p. m., C. S. T.

Plagued by fumbles and give-away interceptions against Belfry, the Navajos for the fifth straight week in a row have it cut out for them.

Cumberland has a 7-1 record for the season, with the lone loss coming at the hand of Benham, 26-0, a team swamped last week by Hazard.

While it may come as little comfort to the charges of Coach Ed Orick, there should be some glee in the fact that Cumberland will be playing without the services of Raymond Scott, the 190-pound tackle who is being lauded throughout the Southeast by college scouts. Scott, a tackle, is on the injured list.

Other than for the ailing Scott, Cumberland will be up, using the regulars who have gone the distance most of this season.

At right ends will be Martin Day and Eddie Hall, both juniors and lettermen of one year. Day's weight, 145 pounds; Hall, 160

pounds. Tackles are Don Howard, 180 pounds, a senior, and Dickie Jones, 170 pounds, a junior with one letter.

Starting guards are Teddy Bullock, 160 pound junior seeking his first numeral, and Ronnie Bowman, 180 pound senior who has lettered the past two years. Center is J. R. Williams, a 170 pound senior.

Cumberland operates mostly out of the T-formation, mixing in "single wing and box to confuse the opposition," according to Coach Gardner Bates, until last year an assistant at Whitesburg.

While the team passes "on occasion," the offense is built around the running of Fullback J. L. Blake, a 200 pound, 6-1 senior, who first lettered last year. With him in the backfield are Butch Barger, 160 pound quarterback who has one letter, and Halfbacks Phillip Wigginton and Johnnie Davis. Wigginton is a 155-pound junior who owns one numeral; Davis, 150 pound senior who has lettered twice.

In the backfield, the story is all Blake. He has "terrific power" and is famous for getting yardage when it's needed most. His counterpart in the line is Bowman, a tremendous defensive player.

Benham got only one series of downs before the Bulldogs uncoiled Handy's running talents for a 13-0 advantage. From the Hazard 21, the Bulldogs raced to the Benham 49, on the running of Fullback Buddy Smyly, Cobb and Sizemore. Taking the ball on a reverse from Sizemore, Handy slid through the right side of the Benham line and scooted down the side line to score.

A fumble recovery by Line-man Paul Cox set up Hazard's third touchdown drive. From their own 46, the Bulldogs raced to the one yard line on key runs of 21 and 16 yards by Handy and a 12-yard pass from Cobb to Smyly. Sizemore blasted over for a 19-0 halftime advantage.

If Benham had any thoughts of making a contest of it in the second half, Hazard erased them within the first two minutes of play.

Forcing Benham to punt, the Bulldogs took over on their own 49 and got to the Benham 29 on a four yard run by Sizemore and a 16 yard pass with Cobb hitting End Wendall Combs. On the next play, Cobb picked out Haliburton for a touchdown and the ulldogs pulled to

? Say There..... SPORT!

Barring the unexpected, the conference will crown a new scoring champion this season—Astor "Cat" Sizemore, of Hazard. Cat has 122 points with three games remaining. The old record is 144 points, set by Frankie Patton of Paintsville. Patton posted the scoring record in 1956, playing in ten games.

As we wrote recently, Patton averaged 14.4 points per game. Sizemore, who has played in six games, is averaging 20.33.

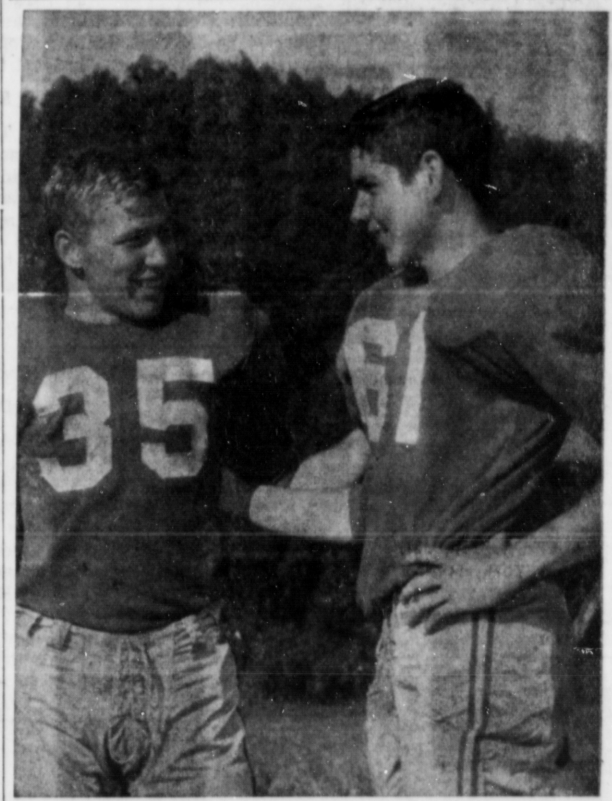

With 23 points needed to break the record, we look for that all-important 23rd to be posted against Leslie County next week in a game to be played at Collins Field.

Since a strong Somerset eleven is on tap for tomorrow night, the odds on Cat breaking the record then are slim.

If he breaks the record, a strong round of applause is due the entire squad. The squad will have made it possible for Cat to break the record. A good deal of credit is due Britt Handy, Cat's running mate at halfback, and Ken Cobb, the Hazard quarterback. Handy has paced the Bulldog running attack throughout the year. Cobb has set up touchdowns and gone to pains to help his sidekick in the Bulldog backfield towards the scoring title.

And A Word For Dr. Lit

For people who have asked me, I can't explain the Litkenhouse ratings or why undefeated Hazard is rated so low. I can state positively, however, that the Bulldogs are getting the raw end of the rating system. Hazard can beat Danville, rated higher, any day. Mountain football is vastly superior to that played in the Central Kentucky Conference, which I observed for many a year.

Napier Co-Captains
Cogs in the M. C. Napier attack this season have been Co-captains Kidd Fugate, fullback, and Tackle, Hershel Ritchie. Fugate is a junior; Ritchie, a sophomore.

Bulldogs Crushes Benham 39-6

Weathering a storm of penalties, Hazard High School's Bulldogs retaliated with their own tornado, Friday night, blowing highly-regarded Benham out of Coal Bowl Stadium, 39-6.

The charges of Coach Jim Caudill marched to their sixth victory of the season against no defeats in a convincing manner. Hazard stormed for 382 yards rushing and passing while holding their opponents to a miserly 74.

From the moment Halfback Astor "Cat" Sizemore ripped off 35 yards and Quarterback Ken Cobb tore lose for 16 yards to set up the initial Bulldog score, it was a one-way ticket for the locals with but irritating whistle stops for the red flag.

No less than seven 15-yard infractions were called against the Bulldogs, who closed the evening with 125 yards in penalties. Fans on both sides were left shocked by most calls and while the three Hazard coaches had no comment on the officiating, they were obviously roared when a penalty was called on the locals.

Apparently, however, the red flag wasn't bothering the players. Astor "Cat" Sizemore raced for 15 points, pushing his State-

setting pace at 122 points for the season. Sizemore blasted for two touchdowns and three extra-points.

Britt Handy smashed for two touchdowns, one on a 49-yard run, while Cobb turned in another of his brilliant performances. The deceptive Hazard quarterback connected on six of nine passes, completing touchdown tosses, with End Decoursey Haliburton for 29 yards and End Joe Baker for 39 yards. In addition, Cobb raced for 53 yards on the ground.

Hazard blasted for it's first touchdown on the taking the opening kickoff and going 73 yards to paydirt on the key runs by Cobb and Sizemore and a fourth-down five-yard penalty against Benham that gave new life to the Hazard drive after the Bulldogs had punted from their own 36.

Sizemore set up the touchdown with a 35 yard run from the Hazard 42 to the Benham 23, and two plays later, Cobb raced for 16 yards to the 10. Punching for the goal line, Handy got three yards, Cobb loped for five more, and then Handy crashed over for a 6-0 score. Sizemore's try for the extra-point failed on a poor pass from center.

Benham got only one series of downs before the Bulldogs uncoiled Handy's running talents for a 13-0 advantage. From the Hazard 21, the Bulldogs raced to the Benham 49, on the running of Fullback Buddy Smyly, Cobb and Sizemore. Taking the ball on a reverse from Sizemore, Handy slid through the right side of the Benham line and scooted down the side line to score.

A fumble recovery by Line-man Paul Cox set up Hazard's third touchdown drive. From their own 46, the Bulldogs raced to the one yard line on key runs of 21 and 16 yards by Handy and a 12-yard pass from Cobb to Smyly. Sizemore blasted over for a 19-0 halftime advantage.

If Benham had any thoughts of making a contest of it in the second half, Hazard erased them within the first two minutes of play.

Forcing Benham to punt, the Bulldogs took over on their own 49 and got to the Benham 29 on a four yard run by Sizemore and a 16 yard pass with Cobb hitting End Wendall Combs. On the next play, Cobb picked out Haliburton for a touchdown and the ulldogs pulled to

the front 26-0.

Hazard made it 32-0 as the fourth quarter opened, capping a 61 yard drive with a one-yard plunge into paydirt by Sizemore. In the drive, Cobb connected with Handy for a 16-yard gain, and on the next play picked out Smyly for a 12-yard aerial.

The Bulldog's defenses set up the final touchdown moments later when Hazard halted Benham on the 43 yard line as Benham was attempting to go for a first down with one yard on fourth down.

Two plays later, Cobb and Baker teamed for their 38 yard touchdown pass. Baker hauled the ball in on the five yard line and then raced over the goal running backwards.

Benham's touchdown came on a 62 yard march with 35 yards of the distance coming on penalties against Hazard. Tailback James Hurd hit End Roscoe Brock with a three-yard pass over center for the score.

ODDS AND ENDS: Ken Cobb accounted for 176 of his team's 382 yards. Cobb got 53 yards rushing and connected on six of nine passes for 123 yards—two touchdown passes. Britt Handy was the leading ground

Echoes of O.F.B.D.

From Iowa

Echoes of Old Fashioned Bargain Days (O.F.B.D.), the highly successful sales promotion staged by Hazard merchants, are being heard all the way from Chariton, Iowa.

Copies of the Hazard Herald's O.F.B.D. issues were requested today by The Chariton Newspapers, of Chariton, Iowa. (The Herald and Chariton newspapers exchange copies of each other's papers.)

The Iowa papers wrote the Herald: "We have noted with interest through our exchange with you that your advertising department and news desk engineered a highly successful O.F.B.D. sale recently. We apparently have misplaced the first issues of the Herald when the 'teasers' for O.F.B.D. were announced. Since we are interested in complimenting you by copying your promotion—could you supply us with a single copy of some of the editions in advance of the Monday, Oct. 6 edition on the sale."

"Enjoy your exchange very much."

Take a bow, Hazard merchants. Your sale is getting nation-wide attention. The Herald, of course, will forward today the issue requested.

Child Survives 5 Transfusions

A two-week old Perry County child has undergone five complete changes of blood at the Miner's Memorial Hospital and is doing well, hospital authorities reported this week.

The following account was made available through the hospital.

Deborah Fugate, a two-week old daughter of Mr. and Mrs. William Fugate of Blue Diamond, Kentucky, was discharged from Miner's Memorial Hospital on October 16th. Deborah had received a total of five exchange transfusions (removal and replacement of her blood) because her blood type was different from that of her mother. This situation caused destruction of Deborah's red blood cells.

Because of similar involvement all except the first of Mrs. Fugate's previous babies had expired either shortly before or shortly after birth.

In order to increase Deborah's chances for survival she was delivered approximately 3 weeks early by Caesarean section. Her birth weight was 4 pounds and 3 ounces. The first exchange transfusion was performed immediately after birth on September 29th. The second was performed later that night, the third and fourth on September 30th, and the fifth on October 1st.

Since the last exchange transfusion Deborah has done very well and was discharged weighing a robust 5 pounds.

22 More Home Units Approved

Eligibility Requirements Announced By FHA For 80 Approved Units

Twenty two additional units of public housing have been recommended for the City of Hazard, City Manager Robert Wooten announced today.

The City already has 80 units under reservation with the Federal Housing Authority, Atlanta, Ga., and Washington, D. C.

Announcement that the additional 22 units would be requested came this morning when Wooten released the text of a letter from the Atlanta office. The letter also detailed the results of the housing survey taken here last month to determine eligibility for obtaining public housing and the number of units needed.

Size Announced

F. H. A. officials announced the following bedroom-breakdown for the public housing units: 14 one-bedroom, 12 for white families and two for non-white; 26 two-bedroom units, 24 for white, two for non-white; 32 three-bedroom units, 30 for white and two for non-white; six four-bedroom units, four for white and two for non-white; and two five-bedroom units, both for white families.

Families eligible for the units will fall in the following income brackets (figure given is for after exemptions): one and two person families, up to \$2,800; three and four member families, \$3,000; and five and more to the family, \$3,000 maximum.

Owner-Families Excluded

Excluded from the survey analysis were renter-families who said they would not move into the federal units and owner-families who are living in substandard housing.

Wooten said today the next step for the City will be a trip to Atlanta to set up the organization which will guide the federal housing program here.

Following the tentative selection of sites for the homes, F.H.A. officials will come to Hazard to set in motion the machinery for building the federal units.

While all sites have not yet been selected, one is known to be under consideration. It is the Bluegrass section of Hazard along the L. & N. Yards, an area of good building sites.

Man Wanted Thumbs Deputy

Take note: It doesn't pay to hitch-hike—at least not when the driver is a deputy sheriff and you're wanted by the sheriff's office.

Arrested Saturday night at Rowdy while thumbing a ride was Dee Noble, of Rowdy.

Noble thumbed down the car of Deputy Sheriff Jeff Miller, Miller had a warrant for Noble's arrest in his pocket.

Noble has been wanted by the sheriff's office since Oct. 3rd, when he was charged with shooting at Mrs. Cindy Noble, his brother's wife. He is also charged with attempting to set fire to his brother's home the same night and with breach of peace.

Court-Appointed Commissioners ReAppraise URP

Two contested tracts of property in the City's Urban Renewal Project have undergone new appraisals in County Court.

Commissioners appointed by the Court last week increased the appraisal on the Kelly Estate property from \$6,000 to \$7,500, and decreased the appraisal on property owned by the Hazard Coca Cola Bottling Works from \$1,775 to \$5,000.

The city entered condemnation suit against both tracts last week.

To date, the city has purchased four of the eight tracts in the Urban Renewal Project—the late McKinley Combs' property for \$42,100; land owned by Grace Williams for \$36,300; property owned by Shafte, Combs for \$32,950; and property of C. C. Dix for \$19,500.

Four Tracts Not Bought
In addition to the Kelly property and the land owned by the bottling firm, the city is negotiating for the R. T. Baker property, appraised at \$46,600, and the Dr. M. B. Payne property, appraised at \$8,500.

City Manager Robert Wooten said today that as a result of the new appraisals made by the court-appointed commissioners, the City can now offer the higher price for the Kelly property, but must offer the lower price for the land owned by the bottling firm.

The commissioners appointed by the court were Tennessee R. Turner, J. W. Fouts and E. E. Margrave.

McKinley Combs Is Called by Death

McKinley Combs, of Lothair, died Thursday, Oct. 16, at the age of 63.

He is survived by his wife, Merza Combs, eight children; Bill Combs, Long Beach, Calif.; Cornelia Jackson, Missouri; Conrad Combs, Lothair; Edith Nash, London; Lloyd Combs and Glen Combs both of Hazard; Grant Combs, Lothair and Linda Combs of Lothair; three sisters and five brothers; his mother and father, Mr. and Mrs. Grant Combs.

Funeral services were today at 2 p.m. at the Engle Funeral Home Chapel with Rev. Sam Combs officiating.

The Engle Funeral Home was in charge of arrangements.

30 Countians Enrolled At Morehead

Morehead, Ky., Oct. 18 — Morehead State College's largest enrollment in the history of the school—1,311 students—includes 30 students from Perry county, President Adron Doran said today.

Kentuckians enrolled at Morehead come from 68 counties. Morehead's out of state enrollment includes students from Alabama, Connecticut, Florida, Georgia, Illinois, Indiana, Maine, Maryland, Michigan, Massachusetts, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Vermont, Virginia and West Virginia.

Also enrolled at Morehead State College are students from Hungary, Greece and Korea.

Enrolled from Perry county are: Roberta Allen; Paul Baker; Kerma Lee Beaver; James D. Begley; Dennis Burton; Janet Campbell; Ralph Carder; Louverna Chaney; Elizabeth Colwell; Mary Alice Elam; Marion R. Feltnier; Jim Ferguson; Kenneth Gilbert; Robert Igo; Rebekah Lewis; James R. Millard; Jesse Paul Napier; Clarence Noble; Jimmy Osborne; Anna Lois Ritchie; Sadie Riley; Shirley Robertson; Steve Sandlin; Cova D. Smith; Ann Spurlock; Nora Stout; Thomas Stout; Patsy Taylor; Billy Waterfield; and Myron Williams.

Coal - Pak System Finds Acceptance In Industry

The coal industry's answer to competitive packaged boilers—the IBW-BCR Coal-Pak Automatic—is gaining a foothold in the small industrial and commercial market and as its advantages become more widely known, sales should increase rapidly.

Two new orders have been received for three units of the Coal-Pak, the coal-fired, fully-automatic packaged boiler developed by Bituminous Coal Research, Inc., bringing the total to 13 unit orders placed since its introduction in October 1957. Of the 13, seven have been installed, five have been shipped from the manufacturer, The International Boiler Works Company of East Stroudsburg, Pa., and one is being built.

Three additional installations are under consideration. Engineered for unit installation in commercial, small industrial, and institutional plants, the Coal-Pak Automatic utilizes a water-cooled pulsating grate, a water-tube boiler, and coal-feed and ash-removal automatically controlled by a BCR control system.

Latest Contracts

The two most recent contracts have been made to place two units of the Coal-Pak at Saint Francis Seminary, Mt. Healthy, Ohio, near Cincinnati, and a single unit at the Koehler Mine of

Kaiser Steel Corporation, at Raton, N. Mex.

The Saint Francis installation will utilize two 71-hp hot water CoalPaks to furnish heat for the seminary. Each unit, rated at 2,400,000 Btu per hour, will have a maximum burning rate of 240 pounds of coal per hour.

The units will be located in an existing boiler room, replacing two older coal-fired hot water boilers. A third original coal-fired boiler, used to generate steam, will be retained.

The Coal-Paks were shipped from the factory early in September.

Two Bituminous Coal Institute engineers, W. C. Holt of District 15 and E. D. Benton of District 4, cooperated with the Hoetker Coal Company of Cincinnati in obtaining the installation for the Coal-Pak Automatic.

The Saint Francis Seminary has an enrollment of about 150 students.

Southwest Installation

Kaiser's Koehler Mine in New Mexico will utilize a 200-hp, low-pressure hot water Coal-Pak to furnish heat for a new office building and service buildings under construction at the mine. Rated at 6,700,000 Btu per hour, the boiler will have a

maximum burning rate of 687 pounds per hour.

Shipment of the boiler is planned for November 1.

Installations Under Consideration

Additional installations of the Coal-Pak are under consideration in three states.

Rochester and Pittsburgh Coal Company is contemplating an installation of a 200-hp steam Coal-Pak to provide general heating for their coal cleaning plant, mine office, shop building bth house, etc., at their Glenville, W. Va., mine. Completion is expected sometime next year.

Another contemplated installation is being studied by a school board in the greater Cincinnati area, to place Coal-Paks in two new schools.

Old Ben Coal Corporation is contemplating an installation of a 100hp hot water Coal-Pak to provide heat and process hot water for their new mine, No. 21, at Sesar, Franklin County, Ill. If chosen, the unit will be used to heat all the mine buildings except the washery.

Fourth Installation Completed

The fourth installation of the Coal-Pak Automatic was made

during the third week of September at the Groveland, Mich., iron ore beneficiation plant of a subsidiary of the M. A. Hanna Company.

Three 300-hp low-pressure steam Coal-Pak units, each rated at 10,340 pounds of steam per hour, will provide space heat for the plant offices and shops when the installation goes on line about October 1.

Each CoalPak has 1500 square feet of boiler heating surface and each has a maximum consumption of 1030 pounds of coal per hour. Fuel cost savings over oil are estimated at \$27,000 annually.

Installations To Be Completed

Installation of three Coal-Pak units, recently arrived at two locations, should be completed shortly. Two will be installed at an Ohio high school and the third will be installed in a Chicago church.

Two 71-hp hot water Coal-Paks will be placed in a new million-dollar high school at Morristown, Ohio, near St. Clairsville. Each unit is rated at 2,400,000 Btu per hour, and each has a maximum burning rate of 240 pounds of coal per hour.

State Police Adding 105 New Troopers

Kentucky State Police are adding 105 troopers, Director Paul M. Smith has announced.

He said competitive examinations will be conducted soon for prospective cadets. Smith outlined these general qualifications:

Citizen of the United States and resident of Kentucky at the time of appointment.

Not less than 21, nor more than 30 years of age.

Minimum of five feet, nine and one-half inches tall without shoes.

Now less than 150 pounds in weight. Weight must be in proportion to height and age.

A high school graduate or possess an equivalent education. Pass a rigid physical exam and physical agility test.

Possess a valid Kentucky driver's license.

Smith added that all trooper appointments are made on the basis of merit by a non-partisan personnel board. He

COUNTY AGENT'S NOTES

6 Attend U.K. Forestry Field Day

Paul Keen, County Agricultural Extension Agent John Caudill, Associate County Agricultural Extension Agent Perry County was represented

by a delegation of six to the first annual forestry field day

at the University of Kentucky Forest on Buckhorn Creek.

Modern logging methods and logging trails were demonstrated. The group also saw the sawmill in operation. Foresters from University of Kentucky and Berea College made talks

to the group of about sixty representing Eastern Kentucky.

The forest area consists of about 14,000 acres and is a part of the Quicksand Agricultural Sub-Experiment Station of University of Kentucky. A similar field meeting and tour is set for next year and we hope to

urgently interested persons to secure an application from the nearest State Police post or by writing Kentucky State Police, Frankfort.

State Police posts are at Ashland, Bowling Green, Dry Ridge, Elizabethtown, Frankfort, Harlan, Hazard, Henderson, LaGrange, Lebanon, London, Madisonville, Mayfield, Morehead, Pikeville and Richmond.

Pasture Renovation

Old pastures can be renovated without destroying them. Yields can be considerably increased, researchers have found at the Kentucky Experiment Station, by adding legumes and observing certain rules.

1) Graze or clip old sod closely prior to renovation; 2) apply needed lime, phosphorous and potash; 3) disk the pasture so as to disturb from 40 to 60 percent of the present sod; 4) seed adapted legumes at the proper time and at recommended rates for pure stands; 5) manage the stand to benefit the legume by clipping or grazing; and 6) control harmful insects.

Such renovation work can be done in early spring or late summer. Moisture is the prime factor in the process, Warren Thompson, extension agronomist points out.

Farmers planning spring renovation should test pasture areas now to determine fertilizer and limestone requirements. The limestone can be spread this fall or during winter.

Plant Flower Garden Now

There is still time to make your plans for a beautiful spring garden.

Daffodils should be planted by the middle of October, other spring flowering bulbs can be successfully planted as late as December.

Proper soil preparation and correct planting depth are necessary for success. Soil is best prepared by adding 5 pounds of superphosphate or bone meal to each 1,000 square feet, working it into the top 6 inches of soil.

After growth starts in the spring, 1 to 2 pounds of complete fertilizer should be added to each 1,000 square feet.

Deep planting has several advantages over shallow planting. It discourages multiplication of new bulbs, thus delaying the time when lifting and separating are necessary. It lessens the danger of disease; it makes it possible to plant annuals in the same location when the tops of the bulbs die in early summer, and they will not need winter mulch.

Tulips and daffodils should be planted 5 to 7 inches deep and 7 to 8 inches apart. Smaller bulbs should be planted 4 inches deep.

Color is more effective if the bulbs are planted in groupings of 3 to 6, with one variety in a group.
